Would you all have time to help me review this short paper Cadmus compiled to help us respond to the “organified uranium” comments? It covers some geochemistry of the site which you are familiar with. I would appreciate your input.

I reviewed it. It looks pretty good to me. I had only a couple of comments.

Thanks!

Hi Valois,

Attached is a draft writeup to support your responses to the organified uranium issue. There are a lot of complexities to the issues both geologically and treatment-wise. We’ve provided a bit of background and some discussion related to certain parts of the expert testimony and public comments.

Let us know if you have questions or want to talk. We are happy to revise if you want additional content or clarification on anything.

Have a good weekend!

Mary Ellen
